Website updates

Last month we updated our Machines/Grinders/Vending page on our website. If you haven't already checked it out see this link <http://www.lacremacoffee.com.au/machinesgrindersvending/>

We have information of the domestic machines and grinders we stock at our cellar door and also have the two vending machines we recommend to some customers who are in an office style environment. If you are interested in purchasing a machine check out the website for a little information on the different machines then come in and talk to Sean and Daniel for more in depth knowledge. At this stage you can not purchase the equipment on line but in the near future we will be adding the grinders to the shopping cart.
